I hereby give permission to store my data in the patient file. This data is used exclusively for the documentation of the treatment and for communication with other health professionals involved in the immediate treatment. The data is stored within the framework of the times specified by law.

I agree that a portrait photo of me can be stored in my medical file. This photo is used solely to reduce the risk of medical records being mixed up.

I also hereby give permission to photograph any existing wound(s). The photograph(s) of my wound(s) serve as documentation in order to be able to observe the healing process more closely. The photo documentation can also be used anonymously for case studies within the framework of studies. In this case, a declaration of consent will be obtained separately. The photos are archived in my medical file and used for wound documentation purposes.

I also agree to the transmission of the necessary data to the responsible laboratory so that an evaluation of blood results can be carried out there with appropriate security.

Dear patients!

Unfortunately, it often happens that patients do not keep the appointment.

We try to take our time for you and make appointments accordingly. If appointments are not kept, we lose this time for other patients. We ask that you cancel appointments at least 24 hours in advance if you are unable to keep them.

Otherwise, we ask for your understanding that we have to charge a fee of € 20.00 for the failure.

We thank you for your understanding. Please hand in the questionnaire at reception. If you have any questions, we will be happy to help you.
